My **PORTFOLIO**

Elisha Jhooyce Magbitang
UI/UX Designer

TABLE OF CONTENTS

01. Introduction

02. Projects

03. Education

04. Work Experience

05. Personal Skill

Introduction

Motivated Computer Science undergraduate with experience in project management, UI/UX design, frontend development, and customer service. Skilled in Figma, Canva, HTML/CSS, and Laravel, with applied work on web systems and health apps.

Proficient in C, Java, Python, and C#, with hands-on use of tools like Brackets and Microsoft Office. Strong communicator and team player, with leadership in student organizations, academic excellence, and a solid work ethic.

Seeking opportunities to apply technical, managerial, and interpersonal strengths in growth-oriented environments.

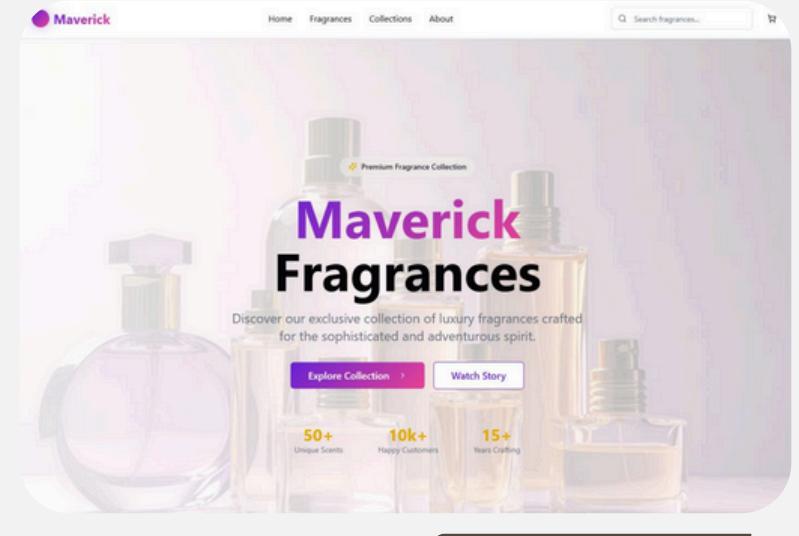

Project 01

Maverick Fragrance

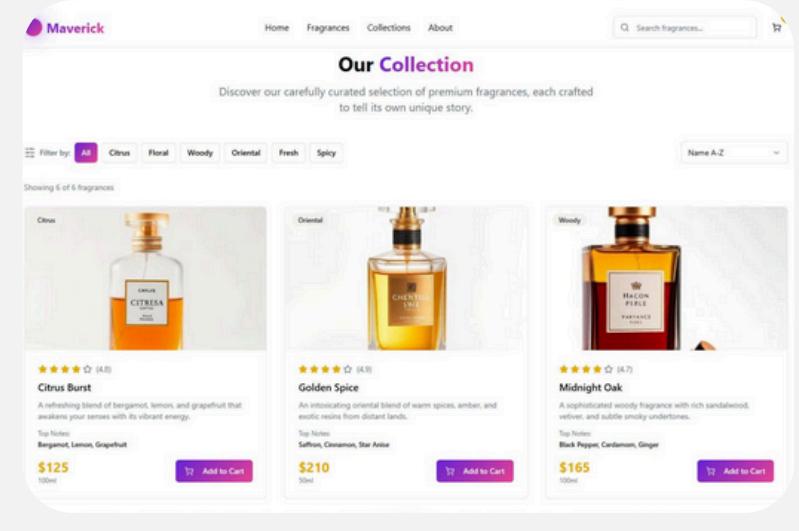

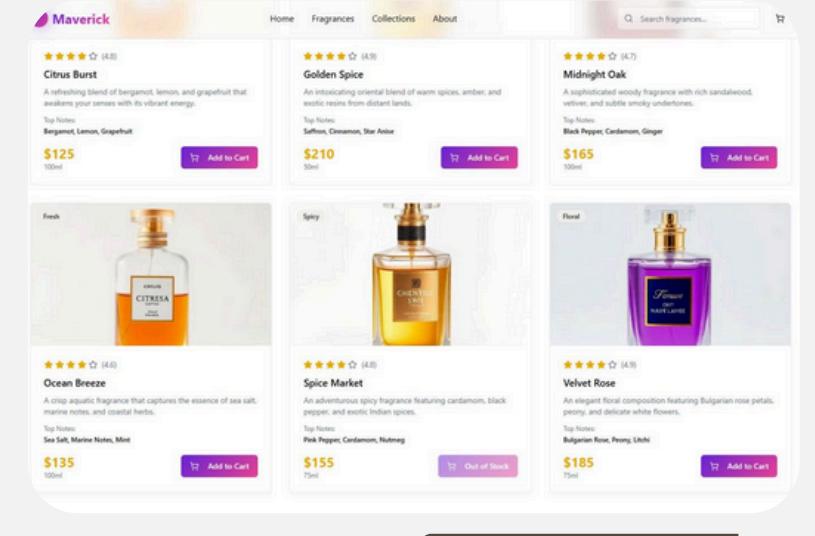

A web-based application that offers eco-conscious customers high-quality, natural scents with a focus on affordability, customer satisfaction, and environmental responsibility.

It uses Figma and Canva.

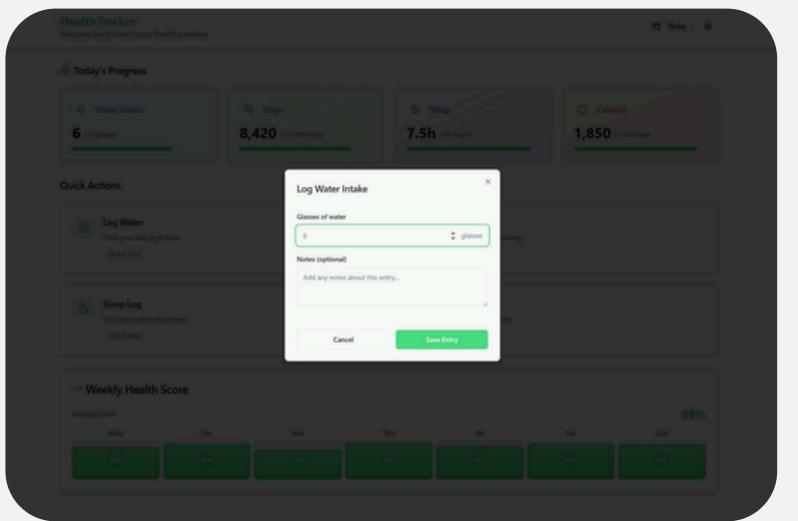

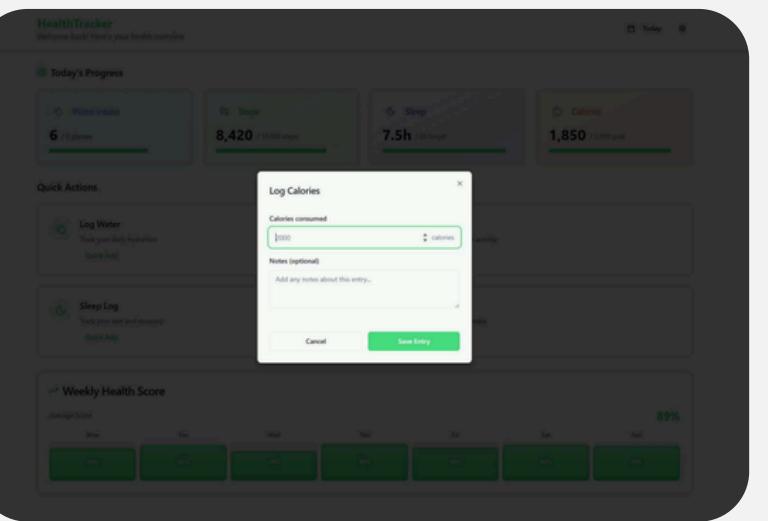

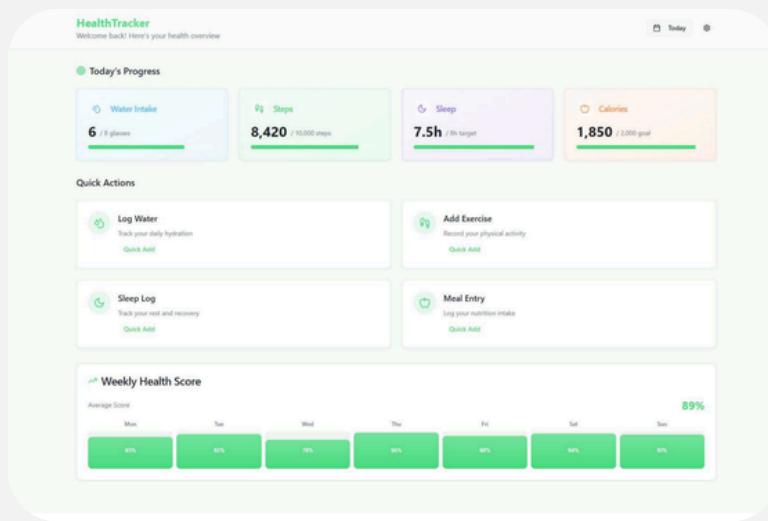

Conducted user interviews and presented design proposals to stakeholders, enhancing my confidence in professional communication and my ability to adapt messaging to different audiences

Design

Design

Project 02

Health tracker

Developed a health tracker application for users to monitor their health using Figma and Canva

Participated in team discussions and client simulations, enhancing my ability to explain technical concepts clearly.

Project 03

Point of Sale System: Web-based Application for Café

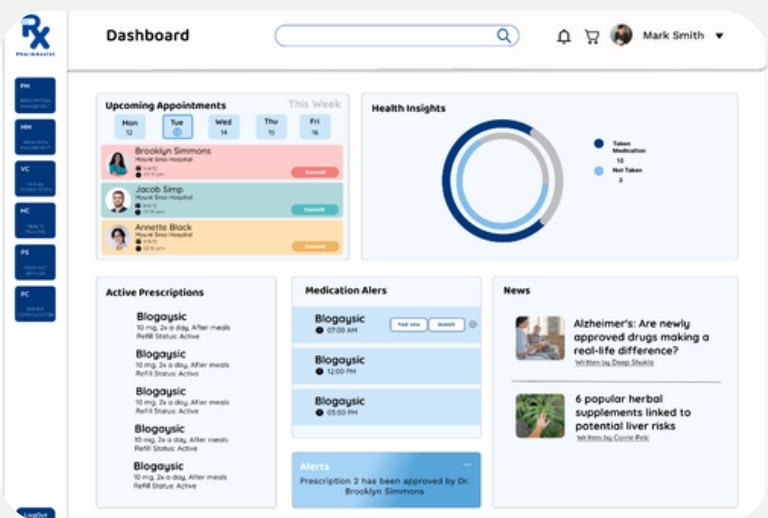

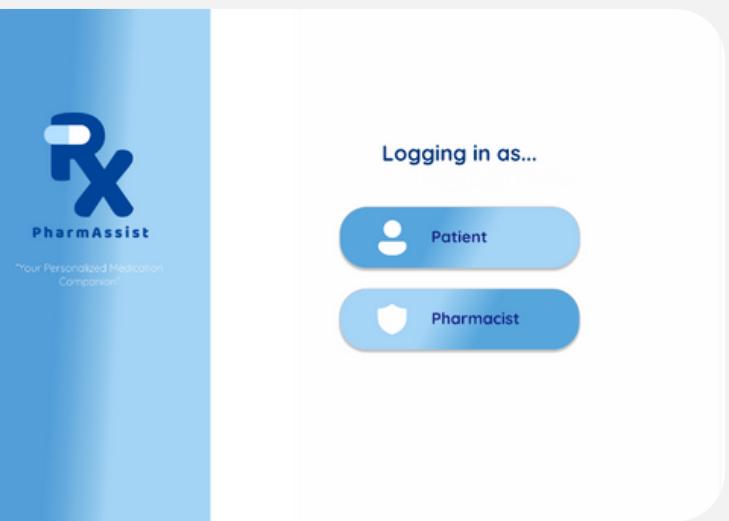

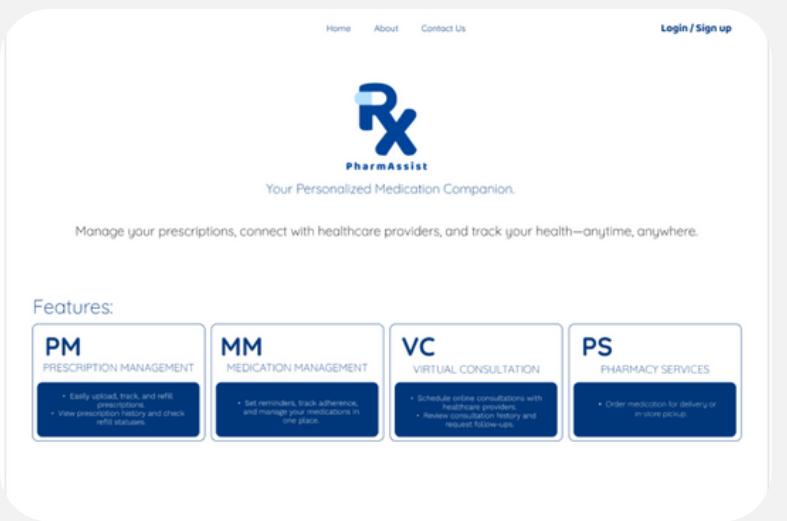

Design

Designed to help cafés reduce errors and streamline operations.

Collaborated closely with peers to understand user pain points and business needs, which improved my ability to actively listen, give constructive feedback, and communicate ideas clearly during group discussions.

Design

Project 04

Future Smart Pharmacy System Web

Developed the frontend design at Lamina Studios, LLC where I completed my On-The-Job (OJT).

Communicated design ideas effectively with a cross-functional team, improving collaboration and confidence in expressing feedback.

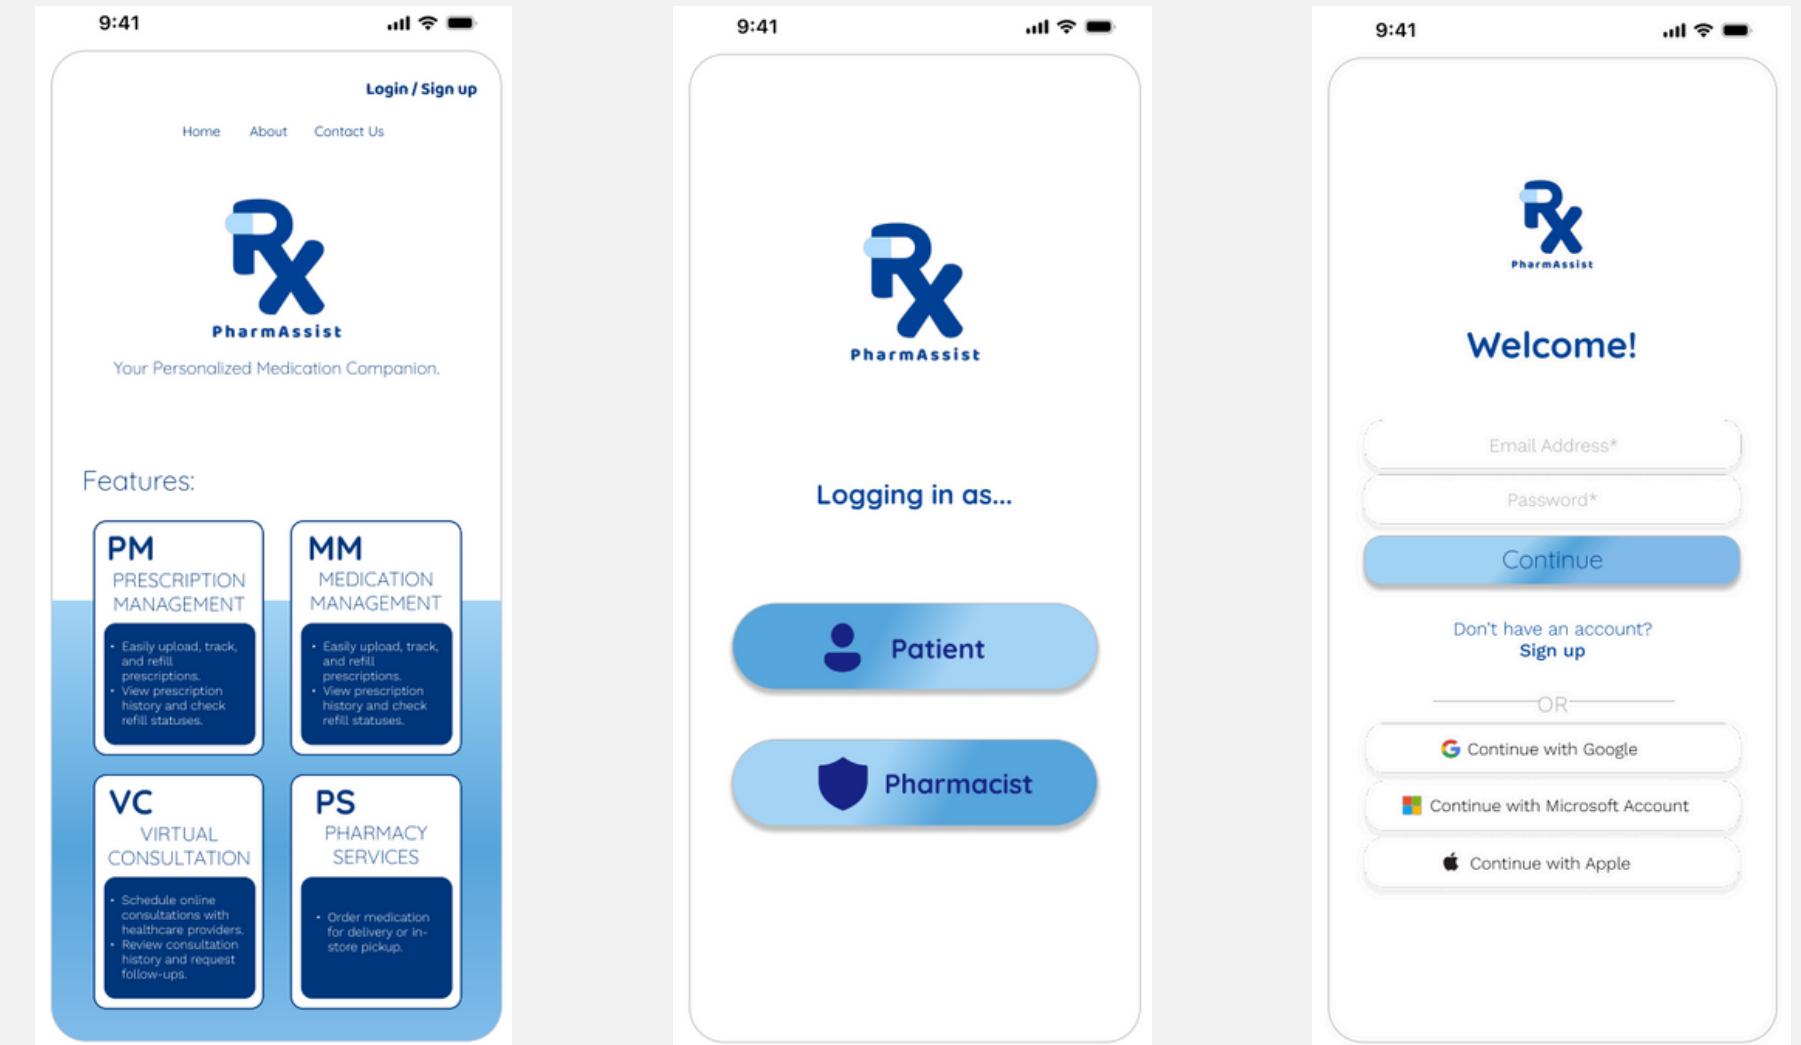

Project 05

Future Smart Pharmacy System Mobile

Design

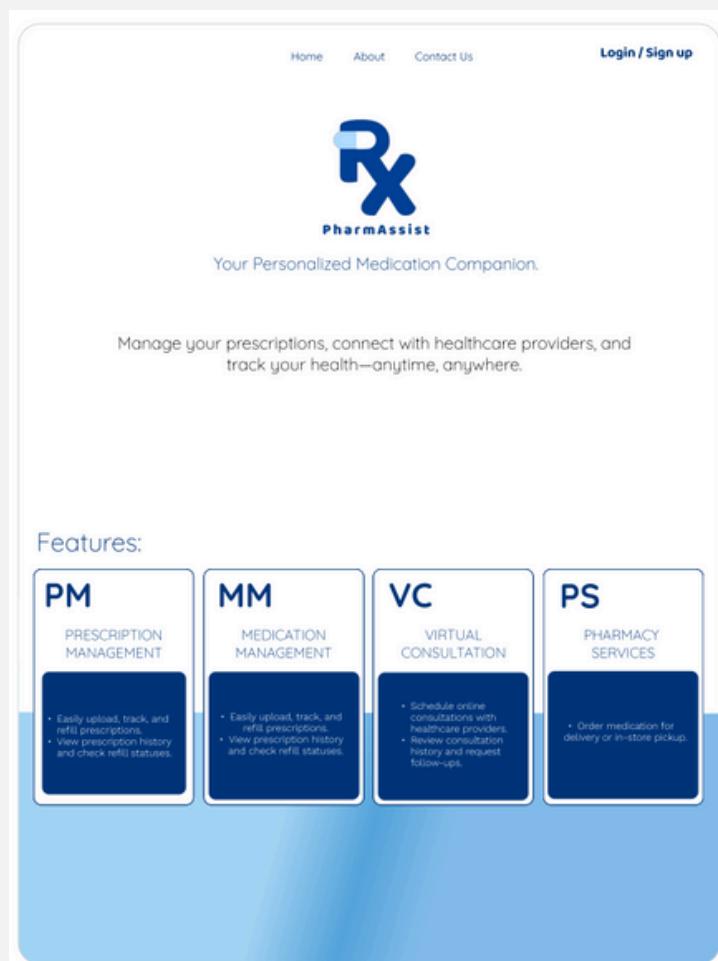

Developed the frontend design at Lamina Studios, LLC where I completed my On-The-Job (OJT).

Communicated design ideas effectively with a cross-functional team, improving collaboration and confidence in expressing feedback.

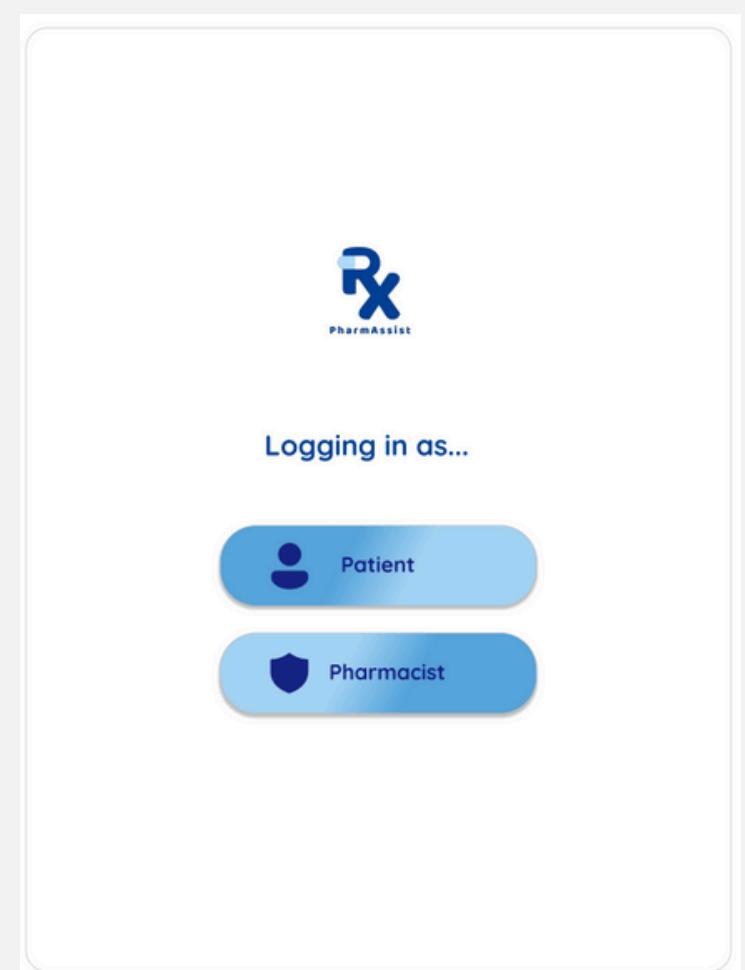

Project 06

Future Smart Pharmacy System iPad

Design

Developed the frontend design at Lamina Studios, LLC where I completed my On-The-Job (OJT).

Communicated design ideas effectively with a cross-functional team, improving collaboration and confidence in expressing feedback.

Project 07

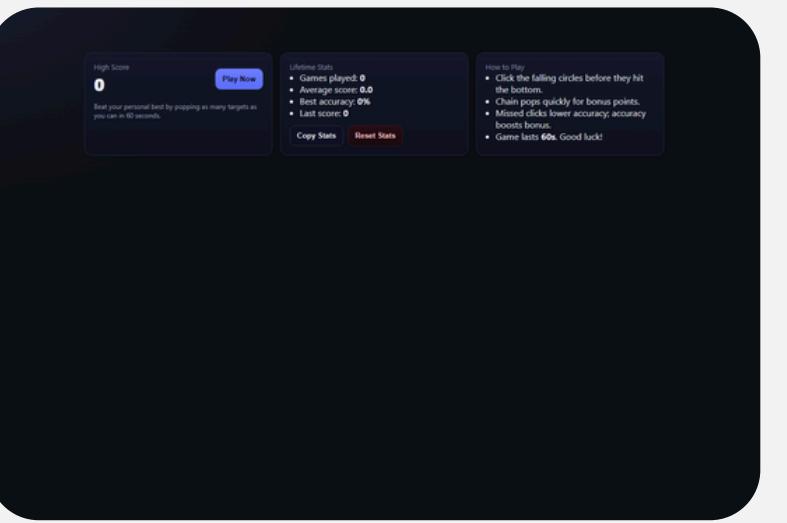

ClickFall: Pop & Score

Developed a browser-based reflex and accuracy game using HTML, CSS, and JavaScript.

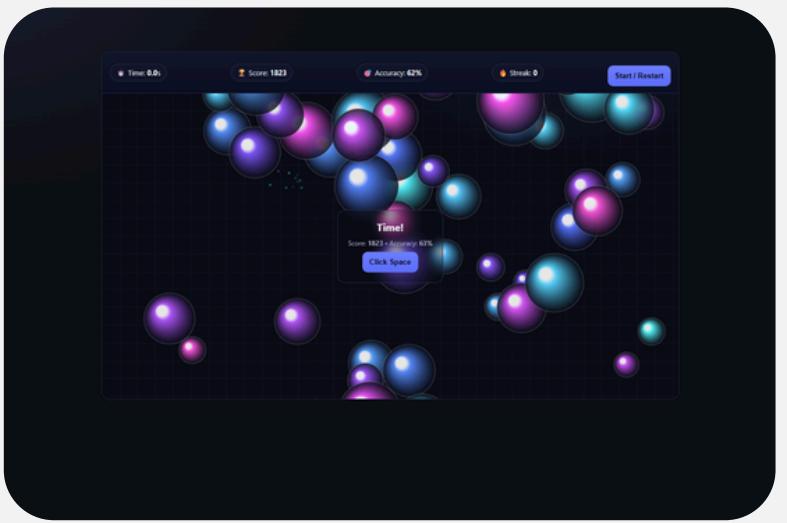

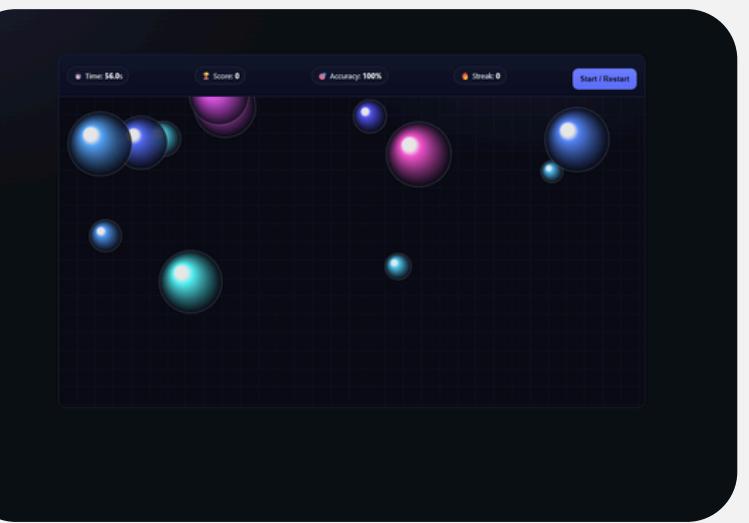

Implemented scoring, accuracy tracking, and a dynamic Game Over screen with restart functionality.

Designed responsive UI elements and interaction flow for an engaging player experience.

Optimized game logic for smooth key detection and real-time performance in web browsers.

Design

Education

Polytechnic University of the Philippines - Manila

Bachelor of Science in Computer Science

Honors: Cum Laude

2021 – 2025

Tagaytay City Science National HS - Integrated SHS

Science, Technology, and Engineering Mathematics (STEM)

Honors: High Honor

2019 – 2021

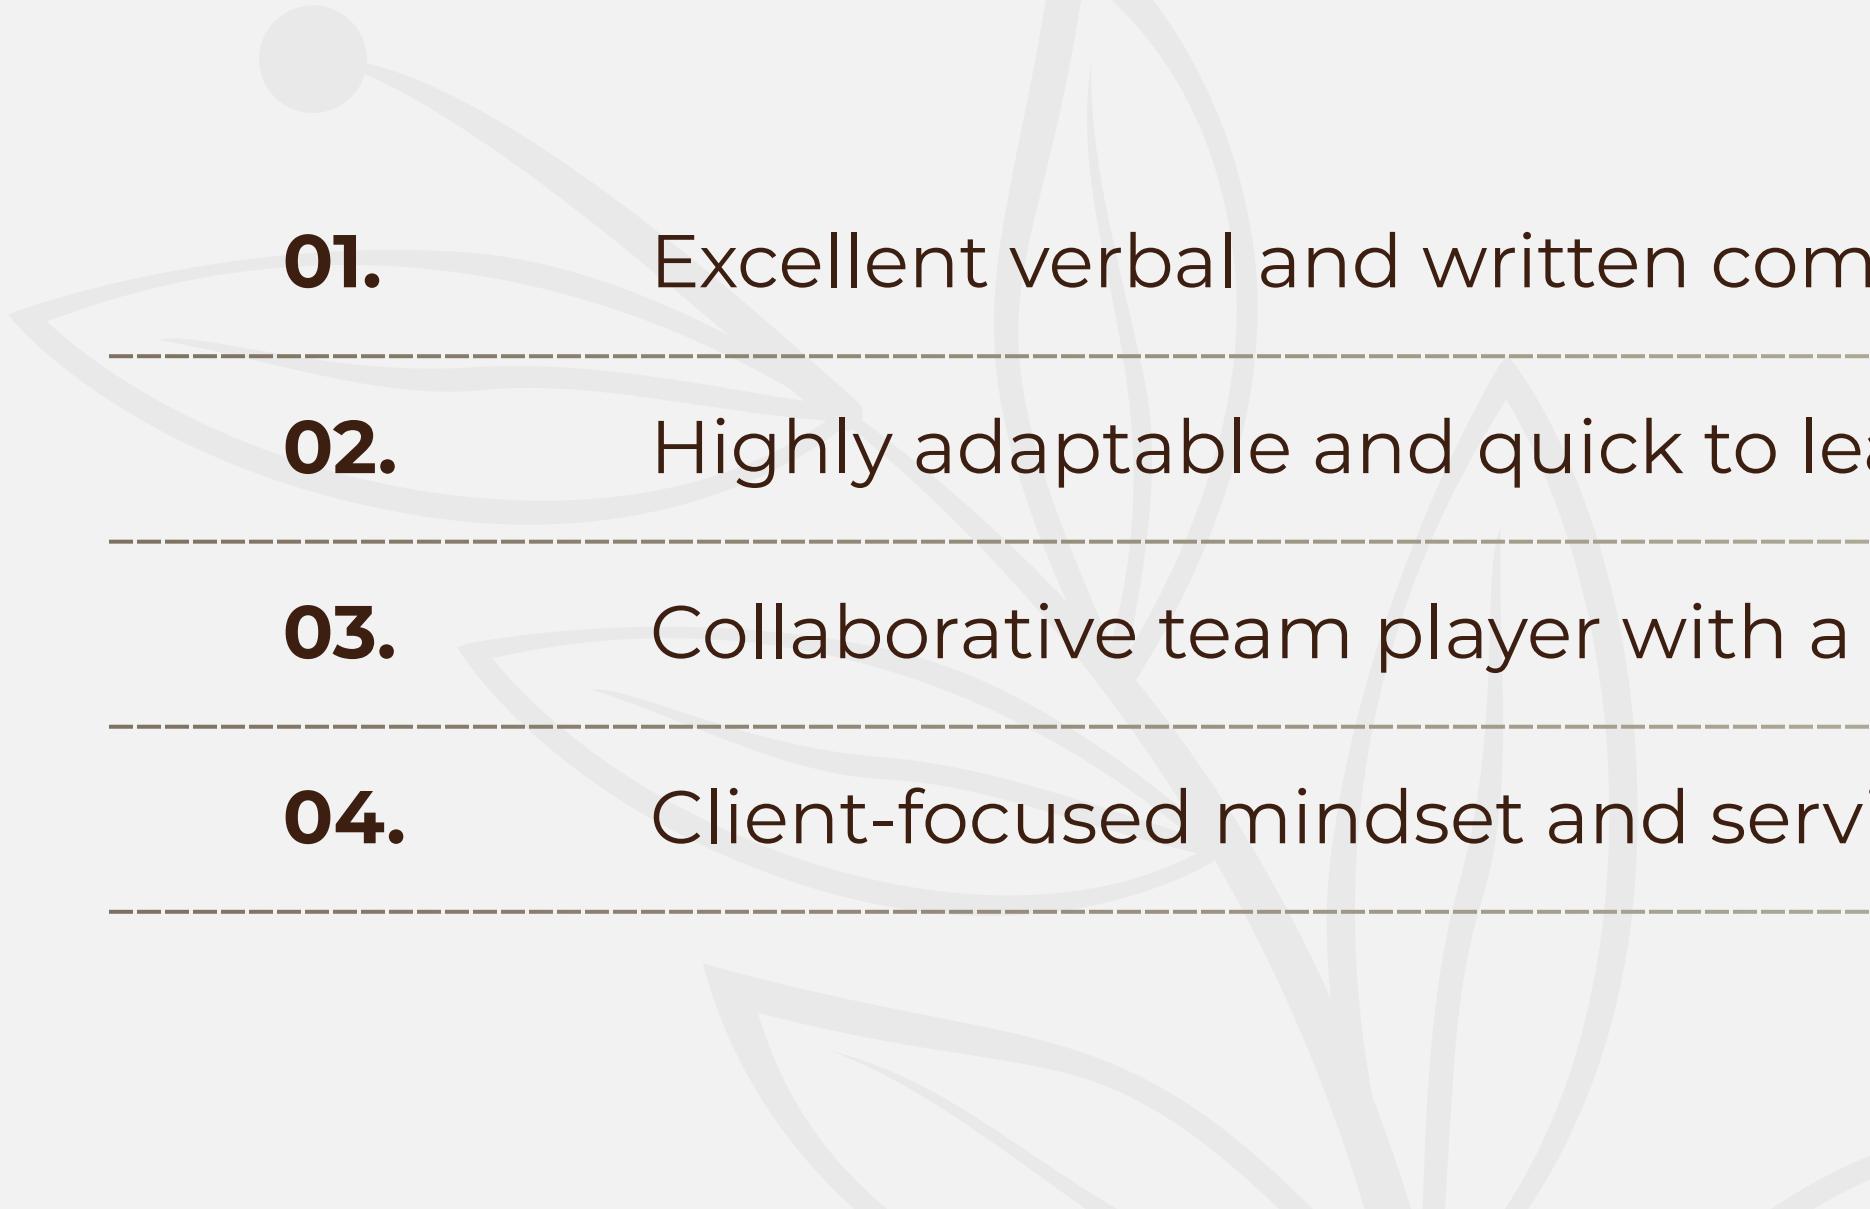

Work Experience

Lamina Studios, LLC

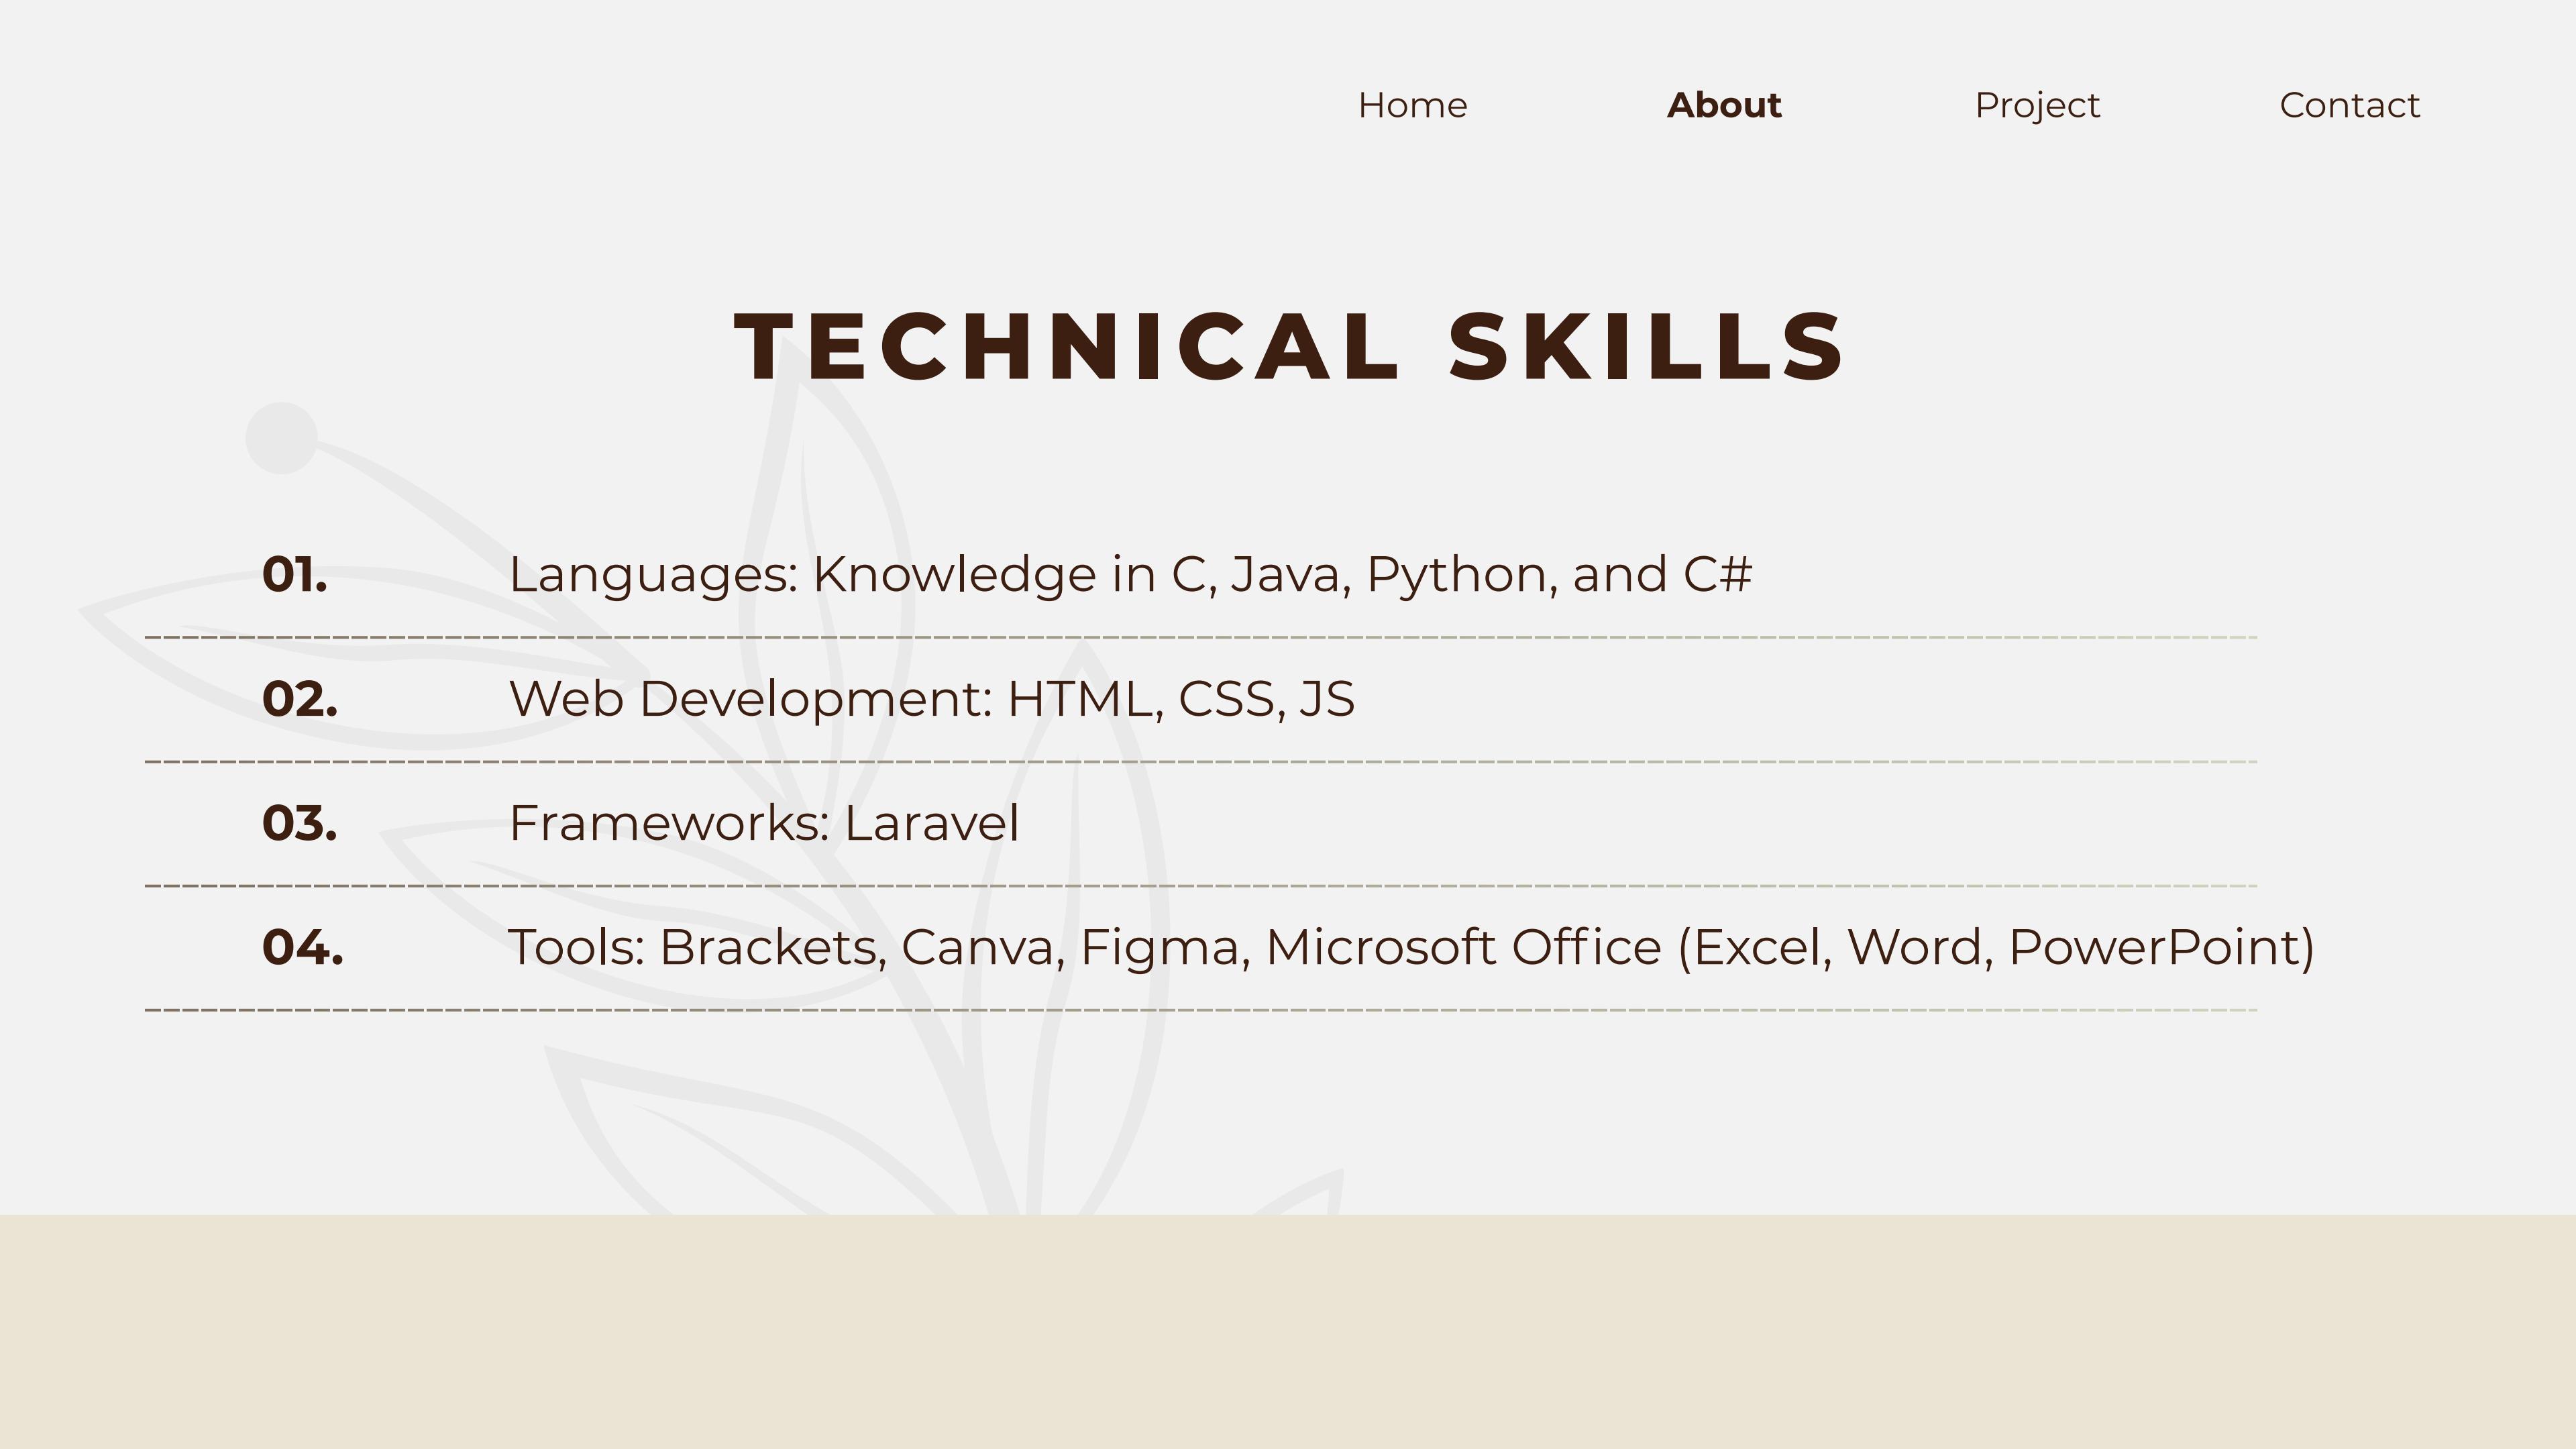

- August – October 2024
- UI/UX Development Team
- Worked with design tools like Figma and Miro to create layouts and brainstorm ideas.
- Learned the fundamentals of color theory, typography, and layout grids.
- Applied design concepts to real-world projects, improving aesthetics and usability.

COMMUNICATION & INTERPERSONAL

- 
- 01.** Excellent verbal and written communication
 - 02.** Highly adaptable and quick to learn
 - 03.** Collaborative team player with a strong sense of responsibility
 - 04.** Client-focused mindset and service-oriented approach

TECHNICAL SKILLS

- 
- 01.** Languages: Knowledge in C, Java, Python, and C#
 - 02.** Web Development: HTML, CSS, JS
 - 03.** Frameworks: Laravel
 - 04.** Tools: Brackets, Canva, Figma, Microsoft Office (Excel, Word, PowerPoint)

SOFT SKILLS

- 
- 01.** Self-motivated
 - 02.** Communication
 - 03.** Adaptability
 - 04.** Strong Sense of Responsibility
